EC463 Software Mini Project 2020 - Covid App

Shazor Shahid
Ryan Schneider

Sprint 1 - Research and Planning

- Both of us had no experience with Javascript, React-Native, or Firebase
- Read Documentation:
    - Javascript
    - React-Native
    - Firebase
- Front-end
    - React-native
- Back-end
    - Firebase
- Story:
    - Be prepared to create structure of application and begin development process

Sprint 2 - Development

- Shazor
    - Develop structure of application
    - Single Sign On
    - Covid API
    - Some UI of Dashboard (structure and buttons)
- Ryan
    - Firestore Dataflow
    - Administrator Dashboard
    - Some UI of Dashboard (structure and daily tracking)
- Story: Complete Covid 19 App with as many features as possible
